

Re: docket # 98N-1038

0799 '99 MAY 17 AIO:12

I feel that irradiated foods ^{must} be required to Label in large print with the Radura symbol and use the terms "irradiation" or "irradiated".

I do not think substitute words for irradiation such as "Cold pasturization" or "electronic pasturization" should be used.

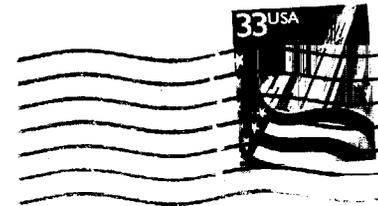

The consumers need to be informed that the above processes kills vitamins and changes in taste of the food. If this is not spelled out it would be deception to the consumer.
